

Step 4 Transcript:

Step four: Take the practice test.

Unlike high school where tests can be a surprise, with the high school equivalency tests, it's different.

Practice tests are available—so you can walk into the real test, knowing what to expect, and pass with flying colors.

A test run, a dress rehearsal, a warmup, athletes do it, performers do it, and you should too!

So do yourself a favor by taking a few practice tests, to feel prepared and confident on test day.
